ENDURING COMMUNITIES FUND

SANDERSON
STEWART

Application for Support

At Sanderson Stewart, giving back to the communities where we live, work and play is part of our core values. It's as fundamental to the way we do business as ridiculous customer service and engineering excellence. We have to take care of the communities that take care of us.

The needs in our communities will always be larger than our ability to give. Since the requests for support will exceed our philanthropic capacity, Sanderson Stewart's Philanthropy Committee evaluates charitable causes and organizations, and grants funding based on applications' consistency with the firm's philanthropy goals, core values and annual budget.

The Philanthropy Committee will review applications on a quarterly basis. If an application is denied by the committee, an organization can re-submit in the next calendar year.

Philanthropy Goals

Sanderson Stewart's philanthropy will focus on creating enduring communities where young people can grow and thrive, citizens are healthy, and everyone can enjoy a high quality of life. We will do this by making meaningful and impactful contributions of money and resources to organizations that further this vision.

To Plan and Design - *and Support* - Enduring Communities....

Tell us about your mission and how it will help to support enduring communities - attach more information, as necessary.

1. Describe the mission of your organization:

2. Describe your funding needs, the purpose for the funds, and the expected outcome:

3. Describe the population or clientele that will benefit from the funds and how many people will benefit:

Consideration of Applications

Although Sanderson Stewart gives all Applications for Support serious consideration, Support is awarded at the sole discretion of Sanderson Stewart. Submission of an Application does not guaranty that Support will be awarded. All decisions of the Sanderson Stewart Philanthropy Committee are final.
